

# Thinking Of You

Mike Stud

I'm thinking of you, I'm thinking of you baby  
And I can't help myself, I don't want nobody else  
Cause I'm thinking of you

And she said "you don't kiss me like you used to"  
"Barely ever talk, you don't miss me like you used to"  
"Out there on the road, always partying and working"  
"Now it feels different, you hardly the same person"  
And I'd be lying if I said I wasn't  
I wasn't lying when I said I loved you  
But on the real, I've been missing your touch  
I just pretend you don't exist so I don't miss you as much  
Cause what's the right girl, if the timing is wrong?  
Went from my everything to a line in a song  
Cause nothing lasts forever ever, though  
If I ever get you back, I'mma never let you go  
Cause I'm thinking of you

And lately, I've been trying to get my mind right  
Sitting in the dark room, hiding from the limelight  
And deepest thoughts when my sleep is lost  
Getting higher than this balcony I'm peeking off  
Cause lately I've been caught up in the cycle of focusing on my  
future  
And forgetting about Michael and who I really am  
And who was really there when I had nothing but a dream and an  
arm in a sling  
I mean, you loved me for me: the way it should be  
And all these other girls are just in love with who I could be  
Left a good one for some bad bitches  
Now I know I must've had it twisted, cause I'm thinking of you

I'm living mine and you living yours  
I hope you find what you're looking for  
I'm living mine and you living yours  
I hope you find what you're looking for  
Cause since you left, I'm just trying to get my head right  
I'm trying to get my head right  
Since you left, I'm just trying to get my head right  
Trying to get my head right
