

# Change

Mike Will Made-It

I just wanna change, you just wanna change  
When that money came, all these hoes just changed  
Talkin' 'bout 4 range, pulled up in them things  
Seein' on them thangs, blowin' out the brains  
I just want some change, that new Mulsanne  
And the window wings, Alexander Wang  
Bitch I'm Charlie Sheen, bitch I got the game  
I just want some change, hey you wanted change

I just made my lane, I just lost my brains  
lost the brains, I just caught a diamond  
Give my jewel a shinin', I'm just kickin' flavor  
I ain't even rhymin', this watch an OT  
I can't tell no time and  
Then I got us the stuff, I'm like, "Fuck nigga, what?"  
Nigga tellin' me that he gon' go to the trunk  
He ain't got no time, I already got mine  
Once he turn his back, put holes in his spine  
But that bitch nigga turn up  
But that bitch nigga turned up  
And never get in my cup  
40 took on me, I've been goin' through some changes  
Tell me to drop my tool, don't know my situation

I just wanna change, you just wanna change  
When that money came, all these hoes just changed  
Talkin' 'bout 4 range, pulled up in them things  
Seein' on them thangs, blowin' out the brains  
I just want some change, that new Mulsanne  
And the window wings, Alexander Wang  
Bitch I'm Charlie Sheen, bitch I got the game  
I just want some change, hey you wanted change

Measure up Porsche, put in the stable  
Power moves at the table  
Paid the cost to be the boss  
Ben Franks, you see me tossin'  
Split the check just like an offerin'  
Family members passed away  
Shit changin' every day  
Kickin' doors and sellin' caine  
What it take to make a change?  
Put a price up on your head  
Nigga you just worth some change  
Used to sleep up on the floor  
I ain't have no fuckin' change  
Now the crib so big  
Find me on the other wing  
where I started  
Some changes I made was the hardest  
Think I'm weak? Lil bitch I've been the hardest  
Drownin' in dirt, gave a nigga a polish  
Was a dealer slangin' narcotics  
My cheese green, not cottage  
Shouts out to me, not the stylist  
I dress myself, I'm the proudest

Now listen I'm too real  
Can't change on nobody  
She got them ass shots  
Spend change on her body

I just wanna change, you just wanna change  
When that money came, all these hoes just changed  
Talkin' 'bout 4 range, pulled up in them things  
Seein' on them thangs, blowin' out the brains  
I just want some change, that new Mulsanne  
And the window wings, Alexander Wang  
Bitch I'm Charlie Sheen, bitch I got the game  
I just want some change, hey you wanted change
