

# Light The Way

Mikky Ekko

Feel like a creep  
Less that you give, the more I want you  
You call me a freak  
Hanging around, the ghost that haunts you

I know (I know)  
I been (I been)  
Alone (alone)  
Too long (too long)  
You all (you all)  
Ways said (ways said)  
That I was good for nothing  
I put my playlist on, oh-oh  
And you hate every song, oh-oh

We are, we are, we know we're not the same as yesterday  
We all, we always set ourselves on fire to light the way

Future is bleak  
Hands of the clock, the hands that taunt you  
So fucking cheap  
Just how I feel, the man that wants you

I know (I know)  
I been (I been)  
Alone (alone)  
Too long (too long)  
You all (you all)  
Ways said (ways said)  
That I was good for nothing  
Gotta get out, gotta get out, gotta get out of this place  
I've gotta get out, gotta get out, gotta get out

We are, we are, we know we're not the same as yesterday  
We all, we always set ourselves on fire to light the way  
We are, we are, we know we're not the same as yesterday  
We all, we always set ourselves on fire to light the way

Your love is such a cannonball  
You'll sail what you waiting for  
You'll soar like a cannonball, like a cannonball, like a cannonball, splash  
I've drunk an ocean everyday  
I've poured myself into the sea  
I don't belong  
I don't know what I have till more is shown to me  
I don't come down, I want it all  
I want your pain, I want your peace  
'Til it's all a force on me

We are, we are, we know we're not the same as yesterday  
We all, we always set ourselves on fire to light the way  
We are, we are, we know we're not the same as yesterday  
We all, we always set ourselves on fire to light the way
