

## So It Begins

## Miles Away

And I won't regret  
You and all you've done for me  
Or how you've changed my life  
A whole new view  
Because of you  
And I won't forget  
Your face, your words, your love  
It means the world to me  
And I hope that things never change  
The day we met  
Gave me hope  
Like nothing before  
And I've gotta say thank you  
Your face, your words, your love  
It means the world to me  
And I hope things never change  
And I hope things never change  
And I hope this never ends  
Nothing compares, it never will
