

# Better Than That

Miles Kane

Oh yeah

When Mister Brown said he felt good  
I tell you it's no lie  
I feel better than that (I feel better than that)

When Johnny and the Silver Beatles  
Had your volume high  
I feel better than that

Maybe it's the time or place  
Or maybe it's your stupid face  
That's turning me on  
Maybe it's the crowded room  
Or maybe it's the bass drum boom  
That's kick this song  
I feel better than that (I feel better than that)

The first time that you saw Bardot  
Inside you really glow  
But I feel better than that (I feel better than that)

You had a crush on Brando and  
You tingle down below  
But I feel better than that

Maybe it's the strobing lights  
Or maybe it's the music  
That is turning me on  
Maybe it's your Go-go hair  
Or Maybe it's the cracking snare  
That's hitting this song  
I feel better than that (I feel better than that)

One four letter word is the sole reason why  
Let me spell out for you  
L-O-V-E  
I'm talking about love

Take a locomotive  
With its head and full of steam  
I feel better than that (I feel better than that)  
Like a Saturn CS rocket with a  
Rollercoaster scream  
I feel better than that

Maybe it's the time or place  
Or maybe it's your stupid face  
That's turning me on  
Maybe it's the crowded room  
Or maybe it's the bass drum boom  
That's kick this song  
I feel better than that (I feel better than that) [x4]
