

Two-faced Johnny, hotel lobby
I won't go up without you
Plated boots, lipstick rouge
Jack on the edge of champagne fruits
Misdemeanor, gossip cleaner
Overacting table reader
Ego driver, loose-lip liar
Driving my head ill

I can see the silverscreens
You won't leave it alone
I don't care what you mean
I don't buy your next scene
You won't leave it alone
You won't leave it alone
You won't leave it alone
You won't leave it alone

Surface tension, I won't mention
Liar, liar, liar, ha
Dancing finger, constant linger
Driving my head ill

I can see the silverscreens
You won't leave it alone
I don't care what you mean
I don't buy your next scene
You won't leave it alone
You won't leave it alone
You won't leave it alone
You won't leave it alone
You won't leave it alone
You won't leave it alone
You won't leave it alone
You won't leave it alone
You won't leave it alone
