

Look at you my lady
This world seems to be crazy
'Cause there's no one, but the baby
That moves you like he does X3

I see what you've become
Yeah, mother of earth ooo..
Now things have to be done
There's so much to learn

If she needed someone to lean on
i'd try to be , try to be there for you
And if she needed someone to keep on living
Now he's already there for you

Look at you my lady
This world seems to be crazy
'Cause there's no one, but the baby
That moves you like he does x2

ooo, eah that moves like he does

I brought myself to him
I play mother's child for you
The things have to be done
It's so much to learn

If she needed someone to lean on
i'd try to be , try to be there for you
And if she needed someone to keep on living
Now he's already there for you

Look at you my lady
This world seems to be crazy
'Cause there's no one, but the baby
That moves you like he does x2

ooo, eah that moves like he does x2
There's no one but the baby x2
This world seems to be crazy
Cause' there's no one but the baby
