

# Losing You

Milky Chance

They say that I'm about to lose you tell me why  
It's been a lot of confusion still we try  
They say that I'm about to lose you tell me why  
It's been a lot of confusion still we try

Need to make some time  
Who's to say if I'm alright  
Can't take to know they lie  
Til they drop the common lie  
Then how to tell a lie  
Who's to blame for such a try  
Want to make it right  
With you just try to hold me tight

They say that I'm about to lose you tell me why  
It's been a lot of confusion still we try  
They say that I'm about to lose you tell me why  
It's been a lot of confusion still we try

Need to make some time  
Who's to say, If I'm alright  
And take another lie  
Til they drop the common lie  
Then how to tell a lie  
Who's to blame for such a try  
Want to make it right  
With you just gotta hold me tight

We need to make some time  
Running for the common lie  
We need to make some time  
Running for the common lie  
We need to make some time  
Running for the common lie  
Running for the common lie
