

Look at you  
I am attracted to you like the sun  
To the moon and ill be sweeping when I touch the skin  
Take you soaring to the wide open space league  
Then we striped an area so that that you can see  
How we explode like the lights in the dark  
And how we glow  
Like it will never be the truth of the minds that we forget  
So let me tell you what I know if I can  
You know I try  
I never want to leave the bible we've made when we create

Mmmm you're my baby  
And your sweet sweet sun makes me crazy  
Mmmm you're my baby  
I want to lay you down and see how you amaze me

You push me up to the inglorious shadows of a craving  
And if we fall we blow up like exponential assembly  
I never thought that some training can stand your mind from behaving  
Did you forget the joy you've reaped and all the times that we made i  
t  
We were the pink gold soldiers of the century of blissful  
We were 1969  
We were Jimmy and Janice  
We are the prophets of the sails  
We choose the way of dimension  
We are caught up from the amount of the frenetic love tension

Mmmm you're my baby  
And your sweet sweet sun makes me crazy
