Fuck with me, die slow, like a chick with no rubber

All white no color albino with them birds be

Drop heads sittin on the back of Kobe's jersey

New York, Jersey, hits like a derby

Black Eyed Peas niggas know I got them Fergie's

That's why the fiends they prefer me

I don't gotta advertise all word of mouth they refer me

Try to out serve me you gotta get up early

For that bread n butta I leave niggas where the worms be

Money super straight like a perm be

Concrete, jungle fuck with me you need a army

Your shit go, pop pop, how you 'gon harm me!

My shit go rat ttttttttttttaaaaaattttttttt like a tommy

I came at niggas calmly, now I'm on some nigga shit

Try to touch my scrilla get you lit like a cigarette

You couldn't get rid of me I'm sort of like the internet

World wide hustler, colder than the winter gets

I am what a spinner is, way past ballin

Don't gotta touch the rock I still eat like Jordan

Haters like oh shit, who is this recordin

M-I-M-S This is what you callin (MIMS!!!)

Freeze it up, in the winter, throw it out, by the summer

Bank account, seven digits like a telephone number

BAH! BAH! Beat it up, you would think I was a drummer

I'm a boss of the bass with the treble cause trouble

Niggas say they make it rain, I don't even see a puddle

Not a drop, you would dry in the Kalahari desert

All that crack, you refer to, man you talkin 'bout the crevice of yo' ASS

Where the cash at? Dow Jones, NASDAQ

Pull up at the light, they like, "I didn't know he haaaad that"
Astounding, look at how I'm spittin
I got more, bread n butta than the motherfuckin kitchen
I can dish it, I can serve it, I can flip it, I can turn it
You could never bring it out, like a muh'fuckin hermit
I put one, show's earning up against ya whole life
Spend it all, make it back, and that's just in one night
You got one chain money, maybe somethin for a whip
I got big boat chips, take a shit on my ships (that's right)
Take a look at what I did, you ain't gotta say I'm rich
But when you talkin 'bout the next, you niggas gotta say I'm IT!!
THAT'S IT!!! - I killed it
More, bread n butta than a muh'fuckin pilgrim
Sorry hip-hop, I ain't mean to hurt ya feelings
Without, sayin nothin, watch me make another million! (Let's go!)

Huh, for the bread n butta I leave niggas in the gutta
Huh, for the bread n butta I leave niggas in the gutta
