

Rise Once Again

Mind Assault

We will rise. We will conquer
No one can bring us down anymore.
Raise our fists in victory, the pain a distant memory
This brotherhood will last forevermore.
Rise once again
From the ashes of our past
New found power's in us. The enemy has been crushed.
Beaten down but came back forevermore.
Rise once again
From the ashes of our past
We will never be what you want us to be, we will never
change.
Freedom's ours, times have changed.
No chain to hold us back anymore...
...Rise once again
