

Fades

Mindy McCready

Every lost touch
Every last tear
Every cross love that brought me here
Every broken piece of my past
Every promise that just didn't last
Every fall
Every scar it...

Fades
Melts away, breaks down
Burns out, disappears in the light
With you so beautiful how you make it all
Fade

Every long road
Every wrong turn
Every bridge I was forced to burn
It's just a shadowed, clouded memory
Scattered moments with no hold on me
But in the quiet, next to you it...

Fades
Melts away, breaks down
Burns out, disappears in the light
With you so beautiful how you make it all

Fade into light
Into ash
Every breath
Every second with you it all

Fades
Melts away, breaks down
Burns out, disappears in the light
With you so beautiful how you make it all
Fade

How you make it all fade
