Every lost touch
Every last tear
Every cross love that brought me here
Every broken piece of my past
Every promise that just didn't last
Every fall
Every scar it...

Fades

Melts away, breaks down
Burns out, disappears in the light
With you so beautiful how you make it all
Fade

Every long road

Every wrong turn

Every bridge I was forced to burn

It's just a shadowed, clouded memory

Scattered moments with no hold on me

But in the quiet, next to you it...

Fades

Melts away, breaks down
Burns out, disappears in the light
With you so beautiful how you make it all

Fade into light
Into ash
Every breath
Every second with you it all

Fades

Melts away, breaks down
Burns out, disappears in the light
With you so beautiful how you make it all
Fade

How you make it all fade
