Take Me Apart

Mindy McCready

Hey, thanks a lot for invading my life
Took a sweeter smell in those soulful eyes
You see into mine where I hide
I lost in you, it gets lonely sometimes
You really messed me up, you play with my mind
You keep me guessing most of the time

But baby you shake me, you know how to take me
To all those places that make me crazy
Now I know how much you really want to
But you hesitate, don't you?

Take me apart, shine in my heart
Steal my love see if I care
Take me apart here in the dark
Kiss by kiss finish what you start
Now I'll never be the same, so take me apart

Hey thanks a lot I'm feeling better
I feel like flying round the universe
You inflate my soul, you got me going
It feels like heaven when I'm in your arms
Now I know how much you really want to
But you hesitate, don't you?

Take me apart, shine in my heart
Steal my love see if I care
Take me apart here in the dark
Kiss by kiss finish what you start
Now I'll never be the same, so take me apart

Now I know how much you really want to
But you hesitate, don't you?

Take me apart, shine in my heart
Steal my love see if I care
Take me apart here in the dark
Kiss by kiss finish what you start

Take me apart, shine in my heart
Steal my love see if I care
Take me apart, take me apart
Baby steal my heart, take me apart
Take me apart, take me apart
