

## Ease the Pain

## Mint Condition

What if I asked you out for sometime  
I've always got you on my mind  
I know you've been hurt before  
But you can trust me, girl  
I won't be in and out the door, babe  
You gotta make some time for yourself  
You've been working two jobs with no help  
Haven't heard from the kids dad in a month  
But don't you worry about him  
He was just a punk, babe  
Yeah hey

I can help ease the pain  
I want you to be my everything  
I know you've heard this words before  
But if you trust in me  
You would win for sure, babe  
Hey hey

You need a strong man to take control  
Somebody like me that you know  
I'd be there for you day and night  
You gotta beat time for the strive, girl  
Now I'm not perfect, I'm a man  
Gonna try to do the best I can  
Be good to me and I'll be god to you  
I won't make you into my foo, baby

I can help ease the pain  
I want you to be my everything  
I know you've heard this words before  
But if you trust in me  
You would win for sure, babe

I know you've heard this words before
