

Forever

Minuit

There is something it's tyrannical in the botanicals
Got a message from the radicals and all my bad-ass girls
There's information on the radio, unstable though
I am only good at leaving

Sometimes it's what you omit than always seems to make
the groove
Bring it on right now I am ready for the shock of the new
I though it was about me, but it is always about you
I am only good at leaving
I am only good at leaving

I don't know where this is, but let me stay here
I don't know where this is, why won't you let me stay
here
