

Diamond Lightning

Minus the Bear

We all go down to coastline bridge
It's where they say all the magic is
Over that dried up riverbed
Blocked by boulders at both ends

We all go down to coastline bridge
Where we ended and we began
Infinity overhead
And I whisper, are you listening?

Liquid concrete under our feet
Trippin' on the constellations we see
Diamond lightning
Seeing where seams are sewn in

We all go down to coastline bridge
Met Lucille for the first time again
Canyon walls became the audience
Time becomes irrelevant
All go down to coastline bridge
To be wedded to our accidents

Liquid concrete under our feet
Trippin on the constellations we see
Diamond lightning
Seeing where the seams are sewn in

Liquid concrete under our feet
Trippin on the constellations we see
Diamond lightning
Seeing where the seams are sewn in
Diamond lightning
Diamond lightning
