

Walk On Air

Minus the Bear

Why won't you let me feel like I can walk on air?
Why did you leave me standing alone up there?
How it feels reaching for
How it feels falling from

So high
Can't let it go on like this
Can't let it, can't let it
Let it go on
Can't let it go on like this
Can't let it, can't let it
Won't let it go

I can't see how you operate
I don't know what you're thinking
I'm saying too much, too much
But you're standing this way
As you laugh off everything

Can't let it go on like this
Can't let it, can't let it
Let it go on
Can't let it go on like this
Can't let it, can't let it
Won't let it go

Can't let it, can't let it
Can't let it, can't let it
Won't let it go

I can't see, don't know, operate
What you're thinking

Can't let it go on like this
Can't let it, can't let it
Let it go on
Can't let it go on like this
Can't let it, can't let it
Won't let it go

Can't let it
Won't let it go
Can't let it, can't let it
Won't let it go
