

Edge of the World

Miracle Of Sound

Into the furthest reaches
Into the deep unseen
Gather the fragments of my legacy

And in the broken pieces
A trail of evergreen
To provoke the darkest destiny

Stand firm
The fires of burden
Still burn

And I will
Stand at the edge of the world
Don't try, don't try to stop me
Stand at the edge of the world
No matter what it costs me

Another savage story
Another night falls blue
I am the monster in your mind again

Another territory
Another birds eye view
I am a hunter in the wild again

Hold strong
We've veiled the sacred
So long

And I will
Stand at the edge of the world
Don't try, don't try to stop me
Stand at the edge of the world
No matter what it costs me

Stand firm
The fires of burden
Still burn...
BURN!!!!

And I will
Stand at the edge of the world
Don't try, don't try to stop me
Stand at the edge of the world
No matter what it costs me
