

## Fires Far

## Miracle Of Sound

Fires far  
Journeys not remembered now  
Tired, scarred  
Kneel among the embers now

Breathe life into this hollowed  
Vessel of rebirth  
Over and over be denied  
The peaceful earth...  
To light the fires far

Ignite the fires far  
Sisters of solace singing  
Ignite the fires far  
The mourning bells are ringing

Deep in the crumbling walls  
The souls of the cursed will fall  
Though kingdoms will fade, decay  
The ghosts of the past shall stay  
Locked away

Ignite the fires far  
Sisters of solace singing  
Ignite the fires far  
The mourning bells are ringing

Breathe life into this hollowed  
Vessel of rebirth  
Over and over be denied  
The peaceful earth  
To light the fires far
