

Forever Flame

Miracle Of Sound

I clasp the closing of the cycle
Soak up the idols' afterglow

And I fall
Forever follow in the flame
I give all
Forever following the flame

Winding round
Over and over again
Fated to wander
Strike me down
Over and over again
To come back stronger

I find my hope among the embers
Rest long remembered where they glow

And I fall
Forever follow in the flame
I give all
Forever following the flame

Winding round
Over and over again
Fated to wander
Strike me down
Over and over again
To come back stronger

And I fall
Forever follow in the flame
I give all
Forever following the flame

Ever on and on
Always come back stronger
