

My Shooting Star

Miracle Of Sound

Just another no-one
Keep the family sound
Like a comet we run
By her gravity bound

In the big black empty sea
She is always there with me
Keeps me sheltered, keeps me free
She is always there with me

Through the silent we go
Yeah she's the shiniest sight
Such a beautiful glow
Little light in the night

In the big black empty sea
She is always there with me
Keeps me sheltered, keeps me free
She is always there with me

Oh don't dry the rain my shooting star
Steer me when I aim to misbehave
Oh don't dry the rain my shooting star
Wash away the leaves upon our graves

Wash it away

Oh she's my shooting star
Carried me so far
Yeah the she's the shiniest sight
My little light in the night
