

## Place In Nature

## Miracle Of Sound

Passage of the bold on the open sky  
A wild new world around us  
Stomp across the earth in the greatest strides  
Thrill of the chase has bound us

The time has come  
To find your taste for danger  
The time has come  
To find your place in nature

Bullet and the blade and the blunt collide  
Titans' hides preserve us  
Culling of the fierce so the rare survive  
Hard is the guiding purpose

There is no beast  
Too brutal for you here

The time has come  
To find your taste for danger  
The time has come  
To find your place in nature

The bigger they are  
The better the prize  
No matter the temper  
No matter the size

Go claim your prize!

Fatal wings rise

The time has come  
To find your taste for danger  
The time has come  
To find your place in nature

Find your place in nature
