

stay by my side

Miracle Of Sound

Distant silhouettes
Empty horizons
Sing a still duet
Affections tighten

Kindred ribbons
Spring us from our tethers
Rivers drifting
Vivid and together

Stay by my side
Soft songs in harmony
Stay by my side
Companions kind now
You and me

Surf the golden waves
On silken highways
Painting flowing braids
In sunken byways

Spacious flow embolden
Ever climbing
Gracious moments hold us
Intertwining

Stay by my side
Soft songs in harmony
Stay by my side
Companions kind now
You and me
