

The Great Unknown

Miracle Of Sound

Open eyes
The longest sleep
The furthest leap
A new sunrise
Look up, look up to see
Pioneers
It's been so long
Since we've been gone
But we are here
Step out, step out and breathe

Rushing over rolling rings
On solar winds we ride

Into the great unknown
The stars light up the stones
We're carried ever onward
Upon a hope of home
Oh oh oh oh

Into the great unknown
Into the faraway
Ride on the hope of home
The sky is ever brighter
Into the great unknown
Into the faraway
Finding home

Better days
The paths we've laid
The friends we've made
Along the way
Reach out, reach out to feel

Out into the vast we're headed
Paths untread to find

Into the great unknown
The stars light up the stones
We're carried ever onward
Upon a hope of home
Oh oh oh oh

Into the great unknown
Into the faraway
Ride on the hope of home
The sky is ever brighter
Into the great unknown
Into the faraway
Finding home

Lives and loves we left behind
Faded in the crest of time
Shooting stars they dot the Milky Way
Painful ends and broken hearts
Left behind for a new start
Shut the doors, ignite and cast away....

Into the great unknown
The stars light up the stones
We're carried ever onward
Upon a hope of home

Into the great unknown
The stars light up the stones
We carry ever onward
Upon a hope of home
Oh oh oh oh

Step outside and breathe the air
Look up to the new sunrise
We are home...

Into the great unknown
Into the faraway
Ride on the hope of home
The sky is ever brighter
Into the great unknown
Into the faraway
Finding home
