## **Forbidden Zone**

The Misfits

Some say that's where man began On this wasted piece of land Where evolution's yet to show Forbidden Zone

Blasting into outer space The planet of the apes Evolutions's one hero

Crossing a plain into another dimension A million years into the future Crossing a path into another dimension We the unseen

Back on earth it's all you'll read about All the evidence destroyed Maps and legends mark the firewalls We the lost abandoned saviors of the forbidden zone

We shall sustain the forbidden zone
