

# Think Twice

Misha

Oh, I know more  
Now I know more  
Than I used to know before  
Because I grow, I grow, I grow

Some people seem so nice  
But they're not, no  
They will keep telling you lies  
Pretend they care but they don't

They will promise to do anything for you  
Even move house, whatever  
Love you for the rest of their life  
No, but they won't, no, but they won't

So this time I decided to be careful

You'd better think twice  
You'd better think twice  
You'd better think twice  
You should take my advice  
You'd better think twice  
You had better think twice  
You'd better think twice  
You'd better take my advice

You can never be sure (be sure)  
What to expect  
Even your best friend can put a knife  
To your back  
Angels in disguise all around you  
Smiling to your face  
Don't forget you have yourself to trust  
And on the way to trust someone else

You'd better think twice  
You'd better think twice  
You'd better think twice  
You should take my advice  
You'd better think twice  
You had better think twice  
You'd better think twice  
You'd better take my advice

So many flipping changes as I've seen  
How can I take the frustration I feel  
When you try to fly they cut your wings  
And suddenly all the support disappears

You'd better think twice  
You'd better think twice  
You'd better think twice  
You should take my advice  
You'd better think twice  
You had better think twice  
You'd better think twice  
You'd better take my advice

You'd better think twice  
You'd better think twice  
You'd better think twice  
You should take my advice  
You'd better think twice  
You had better think twice  
You'd better think twice  
You'd better take my advice

How do you expect me to trust you  
After what I've had with you  
After what I've been through  
I can't put my soul out there  
For the game just like that, no I can't  
Because since then I'm thinking twice  
Each step I take I think twice, oh  
You'd better think twice  
You'd better think twice  
Just take my advice

I'm tellin' you to think

You'd better think twice  
You had better think twice  
You'd better think twice  
You should take my advice  
You'd better think twice  
You had better think twice  
You'd better think twice  
You should take my advice

At the top of the game  
You get knocked off the track  
At the top of the game  
You get knocked off the track...
