

## Holiday Love

Mishon

I know you wonder, where the love is coming from  
All around ya, you can feel it in the air  
And in your heart (your heart)  
It's the greatest feeling in the world  
When your with the ones you love

Don't you wish it was like this everyday of the year  
Smiling faces everywhere so much laughter and cheer  
Holiday love, I can feel the love  
Holiday love, can you feel the love  
So if you ever feel alone, know your always welcome home  
For holiday love, I can feel the love  
Holiday love, can you feel the love  
Every boy and every girl, everyone around the world  
Give holiday love

If you miss your family, don't let the distance keep you apart  
Just know, wherever you are  
is never too far  
It's the greatest feeling in the world  
To your with the ones you love

Don't you wish it was like this everyday of the year  
Smiling faces everywhere so much laughter and cheer  
Holiday love, I can feel the love  
Holiday love, can you feel the love  
So if you ever feel alone, know your always welcome home  
For holiday love, I can feel the love  
Holiday love, can you feel the love  
Every boy and every girl, everyone around the world  
Give holiday love

Holiday love, I can feel the love  
Holiday love, can you feel the love  
So if you ever feel alone, know your always welcome home  
For holiday love, I can feel the love  
Holiday love, can you feel the love  
Every boy and every girl, everyone around the world  
Give holiday love
