

# My Destruction

Miss May I

Say what you want, I've never sinned  
Breathing in the world that you wish you could breathe  
And I will wake, and I can say  
There is another, a better part of me

Cut all you want, I'll never bleed  
You'll never be my destruction  
Crush every bone, they'll never break  
You'll never be my destruction

I may be scared walking in fear  
Feels like I'm calling out but nobody can hear  
I've got a voice, a beating heart  
I've got to live it and climb out of the dark

Cut all you want, I'll never bleed  
You'll never be my destruction  
Crush every bone, they'll never break  
You'll never be my destruction

My destruction  
My destruction, yeah  
You'll never be my destruction

Cut all you want, I'll never bleed  
You'll never be my destruction

Cut all you want, I'll never bleed  
You'll never be my destruction  
Crush every bone, they'll never break  
You'll never be my destruction

Cut all you want, I'll never bleed  
So fuck what they say  
Crush every bone, they'll never break, yeah  
Fuck what they say
