

# I've Been You

## Mnemic

This sight is no longer yours  
Blinded you have been  
Slowly crawling in my veins  
A vicious disaster implanted in me

I've been you  
Since day one  
A compromise till the end of time  
I've been you  
Since day one  
A compromise till the end of time

Shattering the glass that used to set me  
From darkness to reality

I've been you  
Since day one  
A compromise till the end of time  
I've been you  
Since day one  
A compromise till the end of time  
This is humanity, a fake morality

My head is ocean  
My head is mountain

It's an overwhelming sight  
It's an overwhelming fake pride

It's so overwhelming  
Overwhelming sight

I've been blind  
I've been sick  
I've been blinded  
I've been stupid
