

# Dark Night

MØ

I'm burning up  
Why did you leave me away?  
I'm burning up  
Why did you leave me away?

I am fine  
Do your best  
Soon there will be no more rest

Do you remember every word you say?  
Remember every promise we made ooh oh

I am fine  
And you're gone  
Lost in the wind with unwritten songs

Now I'm here freezing and hard  
Waiting for something god knows what

In the darkest night  
You and I  
In my dreams you will always be mine  
In the darkest night (darkest night)  
Red and white (red and white)  
Some say goodbye some count the hours going by (going by)

Hey, Hola, Hey, Hola, Hey

I was fine heartbeat stride  
There'll be a day when we almost die

Wonder if this will bring you back and let us continue our unfinished path

Hours go by  
Here goes storm  
Mysterious night beat by reading balm

On black ice  
Take a peak  
Morning foresaw what I need

In the darkest night (darkest night)  
You and I (you and I)  
In my dreams you will always be mine  
In the darkest night (darkest night)  
Red and white (red and white)  
Some say goodbye some count the hours going by (going by)

Hola, Hey, Hola, Hey, Hola, Hey, Hola, Hey

I'm burning up  
Why did you leave me away?
