

Kindness

MØ

I'm in love with your kindness
In love with the mystery
You and I we were meant to be
It's algorithm, baby
And if I'm lost in the darkness
I'm sure that you would come to search for me
I'm in love with your kindness
It's algorithm, algorithm, algorithm, baby

I hear the whole world talk
But I'm stuck on a keyboard
Yeah, I forgot how to walk away
Now my boyfriend's gone
So is my luck and my toys
I know I gotta stay strong
Gotta stay strong

But when I see you, I come back to life
Lying in your hands, baby, victory is mine
When you grab me, hands to the sky
Carry me through the room

I'm in love with your kindness
In love with the mystery
You and I we were meant to be
It's algorithm, baby (algorithm, baby)
And if I'm lost in the darkness
I'm sure that you would come to search for me
I'm in love with your kindness
It's algorithm, algorithm, algorithm, baby

Oh man, I've been so gloomy
Thinking about what used to be
Now in my dreams I see reality
I hear the whole world talking at once
Talk as one, let me in
Shake me out of my shell, I wanna feel like
Myself again

But when I see you, I come back to life
Lying in your hands, baby, victory is mine
When you grab me, hands to the sky
Carry me through the room

I'm in love with your kindness
In love with the mystery
You and I we were meant to be
It's algorithm, baby (algorithm, baby)
And if I'm lost in the darkness
I'm sure that you would come to search for me
I'm in love with your kindness
It's algorithm, algorithm, algorithm, baby

We're in love with the star power
In love with the the pure serenity
The whole world might be burning up but
We're holding up, give us star power
