

Wheelspin

MØ

Wheelspin all night
Flashes of your eyes
Spinning in my mind (Spinning in my mind)
Wheelspin all night
Someday I will find
My way back to you from the other side
Baby, my truck is on fire
Fire
I let that shit burn
It's easier than to clean up
Say stop or make a turn
Uuuuuuh
Watch me fly away
Drift into another dimension with my splendid pace
Uuuuuuh
But I miss you, babe
Swaying in the wind on a summer's day
Wheelspin all night
Flashes of your eyes
Spinning in my mind (Spinning in my mind)
Wheelspin all night
Someday I will find
My way back to you from the other side
Baby, my throat is on fire
Buy her a drink sweet and strong
(Apple drink sweet and strong)
I'd say I'm living life golden
Some'd say I'm living wrong
Uuuuuuh
Yeah, I chose my way
But I have forgotten what it was that I set out to chase
Uuuuuuh
Hope it's not too late
To get back in orbit and kiss your face (And kiss your face)
Wheelspin all night
Flashes of your eyes
Spinning in my mind
Wheelspin all night
Someday I will find
My way back to you from the other side (From the other side)
Spin all night
Flashes of your eyes
Spinning in my mind (Spinning in my mind)
Wheelspin all night
Someday I will find
My way back to you from the other side
Oh
When everything's slayed and done
Will we sway under the sun?
Oh
Or will I take me aging bones
To an empty golden home
Baby, my truck is on fire
Fire
I let that shit burn
