## Hold On

**Mob Rules** 

Underneath the surface Beyond the human skin There's a certain feel of hunger A scream from deep within

I never reached the higher grounds I always failed the time Just tried to get the inner strength of mine

Hold on and try to fly Hold on like wings in the sky Hold on we tried to fly So hold on

All the dreams are over In the black hole of the sun The seed of our madness Took my soul and made me run

The moment when a child is born The miracle of life Is stronger than the shadows of the night

Hold on and try to fly Hold on like wings in the sky Hold on we tried to fly So hold on
