I know what I am... and right or wrong people will look up to me because they think I am a success... I've got what they've always wanted MONEY... Without it you're nothing Money buys dignity, Poverty is a crime Nobody asked you where you got your dollar they ask you do you have it that idealistic shit won't pay you rent... I don't wanna start philosophizing anyway

Can you blame me I was raised from a cold street, make for a better story what they told me

Sad part this shit is real life, pressure on me nough to break a fuck

in steel pipe

Wipe blood on my razor blade, teach niggas how to chill out and make
way
When you see me take it easy, best believe me
This the real world nigga not TV
M.O.B.B money over bum bitches, Deeper than the sea floor you sleep w
ith the fishes
When you try my tolerance dumb nigga, I'm a hip hop God
You just a fuck nigga, I do this for reals you wish you could
Talkin like you will I wish you would start a war
Get it on You are not that strong we are
