

# The End or Start Again?

Mod Sun

I thought it would be easy  
But I can't stop thinking about you, yeah  
I can't believe those words came out my mouth  
I know that I'm wrong now  
I said I know that I'm wrong now  
I can't believe that's how it turned out  
Stop, back it up and turn around and think like  
And now the only thing missing in my life is  
The only thing missing in my life is  
The only thing missing in my life is  
My ride or die baby, oh

Where do we go from here, go from here  
The only thing missing in my life is  
My ride or die baby, oh  
Maybe this could be the end  
Where do we go from here, go from here  
Ride or die baby, oh  
The only thing missing in my  
Ride or die baby, oh  
Maybe we could start again

The pressure to stay together  
The only thing consistent  
And I know that you'd hate me for saying that  
But least I admit it  
I became a different person, I like that you did it  
Almost slipped up on the road  
But stayed true to our commitments, yeah  
How can the one I was closest to become so distant?  
How can all of the good times now be reminiscent?  
How can your biggest fans turn into your biggest critic?  
How come I take somebody's love  
But scared to death to give it?  
How many mistakes will I make until I just start to get it  
I'm so sick of saying I'm sorry and being fake forgiven  
You keep threatening to me that you're leaving  
Well, this time, I'll listen  
If you wanna go, I won't stop you  
From making that decision

Where do we go from here, go from here  
The only thing missing in my life is  
My ride or die baby, oh  
Maybe this could be the end  
Where do we go from here, go from here  
R-r-r-ride or die baby, oh  
The only thing missing in my  
Ride or die baby, oh  
Maybe we could start again

Remember when you told me  
That I was better off lonely  
Then I told you that  
All your last dudes were fake and phony  
And then you told me that I put you down  
But I put you above my homies

And we all know that when you take a break  
That just means break up slowly  
Last night, I had a nightmare 'bout my dream girl  
That's fucked up  
Somebody tell me what that mean for real  
And while you're at it, grab the wheel  
'Cause lately, I've been drinking 'til I can't feel  
Tryna keep my mind off how I really feel  
Like I kept it so honest in our relationship  
Never tried to hide your from the world on some rapper shit  
Never went behind your back and never hit up other chicks  
If you think you can find someone else better, I'm cool with it

Where do we go from here, go from here  
The only thing missing in my life is  
My ride or die baby, oh  
Maybe this could be the end  
Where do we go from here, go from here  
R-r-r-ride or die baby, oh  
The only thing missing in my  
Ride or die baby, oh  
Maybe we could start again

I thought it would be easy  
But I can't stop thinking about you, yeah  
I can't believe those words came out my mouth  
I know that I'm wrong now  
I said I know that I'm wrong now  
I can't believe that's how it turned out  
Stop, back it up and turn around and think like

I was, like, in this, like, crazy mode, bro  
This is right before I, like, really moved to California  
I was in this crazy [?] mode where I wanted to be,  
Like, a legend so bad that I was thinking of,  
Like, you know, all these things your life allows  
You to create, which is like this crazy movie,  
And I always have this, like,  
Vision of making my life this crazy fucking movie  
Movie, movie, movie

Maybe this could be the end  
Or maybe we could start again  
Maybe this could be the end  
Or maybe we could start again  
Maybe this could be the end  
Or maybe we could start again  
Maybe this could be the end  
Or maybe we could start again  
Maybe this could be the end  
Or maybe we could start again  
Maybe this could be the end  
Or maybe we could start again
