

The Other Side

Mod Sun

Born on the other side, names mod sun hello!

I broke on through to the other side [X4]

I live in a world I designed
I do what it is I desire

I'm on the other side [X4]

Yeah I started out the same
Young, just like any other
Yeah I heard what they were sayin
But my mind was made to wonder
Thinkin bout the that I ain't never ever gone and
If I can make it there if I really wanna
Live like its over time, leave this whole world behind
Take a trip inside your mind, everyday like summer time
Heard about the other side, thats where I gotta go
Took the trip, lets say I never came back ohh
Yeah they want it great at home, but I want the great unknown
I wanna breathe new air but I don't wanna leave my zone
Distractions stay away, matter of fact leave me alone
Matter of fact it don't exsist, makin this inevitable
The only way I know to make it possible, make a name for yourse
lf
Or don't come back home
I'm comfortable with doin somethin new, its hippy hop what a br
eak through!

I broke on through to the otherside
I live in a world...

So I gave em somethin new, let em know I am concerned
But they never talkin back, man they got a lot of nerve
