Biopsy from the origin of sound
Confirms you're speaking truthfully
Concludes everything I thought about

What's truths betrayal I find in the heat of the moment
Betrayal, what have I done now

You think we can make it

What's truths betrayal I find in the heat of the moment
Betrayal, what have I done now

It's not like me to forgive and move on always
Looking back on my mistakes and others
Too distant to see where I went wrong

Well
You say this is forever
You told me this is forever
Say this is forever
Tell me this is forever
Say this is forever
Tell me this is forever
Tell me this if for
