

Holy Ghost

Modern Baseball

He's been haunting my dreams at night
I've been bleeding from tripping in the dark
Trying to turn on the light
Trying to turn on the light
He's been haunting my dreams alright
I've been hollering at him in the dark
Trying to find the right switch
Yeah my third wish
Has always been three more
But this time my holy ghost is hovering over me
And I am passed out on the floor
