

Love Is A Perfect Murder

Modern Day Escape

She spread her legs
That night
Love was made
I love her twisted games
I love her twisted games
Sweat rolls down your arm
Cold breath
An sick obsessions
Bite my.... fucking... lip
Til blood spills... from.... it
Blood spills from it
Blood spills

Your love is
a Perfect murder
please Give me your disease
Cose I'm begging On my knees
Just Set me free

Some will live
Some will die tonight
We've got a chance
We live 4 these fights

She stole my heart
So.... I..... Took her keyes
I left her car parked
Between some trees
I lit a match
Then I started to laugh
I Got a smile filled
Angst and ashes
No No

Your Love is a
Perfect murder
Please give me your disiese
Cose I'm begging
on my knees
Just set me free

I never thought that I would see you like this lieng on
you back
pressed in a face to face
In a pool sweat
I never thought that I would see you like this
Hands tied behind your back
Blood running down your face
in a pool of sweat
and
Of shame

I love you
I gave you everything
How could you
How could you
Do this to me.....
