

Down

Modern Day Zero

Between you and I
You seem to have control
Never giving in
For love even though
You can't stand or breathe without me here
How long do you think you can keep from going

Down
I think you want me
To fall down
Down
I know you want me
To fall

Between you and I
You have the upper hand
Foreseeing this change
Only 'cause you can
And you've been waiting here for so so long
How long do you think you can keep from going

And I'm watching you fall down
And I'm watching you fall down
And I'm watching you fall down
And I'm watching you fall

And I'm watching you fall down
Watching you fall down
Watching you fall down
I think you want me
I know you want me
