

## Sick Inside

Modern Day Zero

I can see  
The sickness deep inside  
It is the end of me,  
It's rising to the surface  
I feel the walls are closing in on me  
I've lost control now  
And I can't break free

Sick inside,  
Sick inside  
Somebody tell me what the fuck is wrong with me  
Why do I always feel so  
(Sick inside,  
Sick inside)  
Sick inside,  
Sick inside  
My head is wrong and I know that I'm not right  
Why do I always feel so  
(Sick inside  
Sick inside)

Why does it always feel so right  
When I let the worst of me come out  
And sink down so low  
Alone and lost at night and i can't sleep  
All these fears  
They're making me

So low  
Someone show me  
What I need to do  
To feel like you

Sick of myself
