We were spitting venom

At most everyone we know

If the damned gave us a road map

Then we'd know just were to go

Now let it drop Let it all drop Let it all drop Oh, let it all fall off

Well you were talking soda pop You were talking quite a lot The opinions that I do not give The opinions I ain't got

So let it drop Let it all drop Let is all drop Let it all fall off there, oh

Well, you were spitting venom At most everyone you know If you truly knew the gravity You?d know which way to go

Well, let it drop Let it all drop Let it all drop Oh, let it all fall off

My ears were bristled firmly Right against your mouth to hear When you tried to spit the venom out Your words were not so clear, now drop

Hold on to what you need
We've got a knack for fucked up history
Hold on to what you need
We've got a knack for messed up history

Well, we went downtown

And we sat in the rain

Well, looking all direction and waiting for a train

Thought over, it's all over

I didn't know you kept track I didn't know there was a score Well, it looks like your the winner and I ain't gonna play no more It's over, game over

Well, we walked real stiff and I came inside the ground You hit me with yours And said 'Pull yourself together' It's over, oh, it's over

You can say what you want but don't act like you care It takes more than one person

To decide what's fair It's over, think it over

You were spitting venom
At most everyone you know
If the damned gave you a road map
Then you'd know just were to go

So we carried all the groceries in While hauling out the trash And if this doesn't make us motionless I do not know what can is to be said

What a rotten thing to say
Such an awful thing to say
I didn't mean to bite you so really
What always did, what always did, what always had to sling

So let it drop Let it all drop Let it all drop Oh, let it all fall off

Let it drop
Let it all drop
Let it drop
Oh, let it all fall off

Cheer up baby
It wasn't always quite so bad
For every venom then that came out
The antidote was had

Cheer up baby
It wasn't always quite so bad
For every venom then that came out
The antidote was had

Cheer up baby
It wasn't always quite so bad
For every venom then that came out
The antidote was had
