

# I Wouldn't Cheat On Her If She Was Mine

Moe Bandy

I reached out my hand to gently touch her  
For a moment there I think she almost smiled  
Then she trembled turned away whispered some day not today  
Gettin' over bitter mem'ries takes awhile.

Some one else has built a wall of ice between us  
I'll melt it all away a little at a time  
I'll just take her slow until she knows the past is all behind  
And I wouldn't cheat on her if she was mine.

I try to understand how she must feel  
Wantin' love so bad afraid to try  
I'll do all a man can do to let her know it's love this time  
And I wouldn't cheat on her if she was mine.

It's so hard for her to see love's other side  
When the only love she's known's the hurtin' kind  
I'll just take her slow until she knows the past is all behind  
And I wouldn't cheat on her if she was mine.

No, I wouldn't cheat on her if she was mine...
