Misery Loves Company

Moe Bandy

Well I've just left my home friends where I couldn't sleep For missin' a man that I couldn't keep She just walked out and left me for somebody else Now her memory keeps haunting me but I'm by myself

So break out the bottle bring on the crowd Tell funny stories turn the jukebox up loud Come on sit at my table where the drinks're on me Yes gather round me cause misery loves company

This is not the first time I lost everything
To a false hearted woman with a false hearted dream
But this is the first time I've suffered myself
Help me get over this love I'll handle the next love all by mys
elf

So break out the bottle Yes gather round me cause misery loves company
