

Mechanical

Moist

Quite you breathing
Keep to the Shadows
Life isn't easy
Love Isn't Kind
Touch is so simple
Almost inhuman
Unearthly feelings
Synthetic mind

I see the world falling to pieces
Crumbling beneath us
And it just so hard to fight
Those who control us we are destroyers
This mechanical life

Out of the darkness
Words are unspoken
I know we're helpless
I know we're blind
Under the starlight
We walk on water
We walk forever
Until we die

I see the world falling to pieces
Crumbling beneath us
And it just so hard to fight
Those who control us we are destroyers
This mechanical life [x4]

I see the world falling to pieces
Crumbling beneath us
And it just so hard to fight
Those who control us we are destroyers
This mechanical life [x6]
