

## Put The Devil On It

Moist

Bold moves political wars  
Nile corporate cynical pop stars  
Salvation's handing out love  
Rebranding all of your sun gods

And we know what they know and we'll know when it's gone  
Put the Devil on it  
Put the Devil on it

Little criminal making up wars  
Bow down it's what they were made for  
All praise the hustlers tonight  
All rise the temperature's just right

We know what they know and we'll know when it's gone  
Put the Devil on it  
Put the Devil on it

We wave as politics dies  
Smile on like cynical pop stars  
Desperate to bath in your love  
Desperate to bath in your love

We know what they know and we'll know when it's gone  
Put the Devil on it  
Put the Devil on it

I know that we are broken  
I know that we are  
I know  
I know that we are broken  
I know

We know what they know and we'll know when it's gone  
Put the Devil on it  
Put the Devil on it...
