

## The River

Moist

Lord won't you save me from the dark  
I feel it's slipping in now  
A little trick to fool us all  
Fill the cracks out  
I felt the devil call my name  
Felt the wind it's calling  
A little trick to fool us all you fool us all  
Oh and I know that the river won't save me  
Won't save me  
So take me in and hold me down  
Let the sin wash over  
Until water cleans me out  
I'm too tired to fight  
We ran to Jesus to be saved  
Fill the hole inside me  
A little trick to fool us all you fooled us all  
Oh and I know that the river won't save me  
Won't save me  
Lord I feel so heavy now heavy now  
Oh and I know that the river won't save me  
Won't save me
