

# Rainbow bridge

Molly Hatchet

Everybody's got a different life story, there ain't no two alike

We all have family hardships, do our best just to survive  
Early springtime morning, the life I knew came to an end  
I lost my lover and my wife and my very closest friend

Your mama and your daddy always raised an eye to see  
They tried to give you all the love they had and ever need  
I gave you unconditional love, so you would never feel alone  
We picked out an ice cold house that you turned into our home

So let's celebrate the lady we were lucky to know at all  
I'm so sorry that she's gone, but her spirit lives on and on  
As you cross the rainbow bridge, you're in my heart

And it wasn't just so I love you, I never put no one above you  
I think about you every minute of every day  
You and mama are above me 24/7, 365  
I know you're walkin' with the angels and yourself is out tonight

So let's celebrate the lady we were lucky to know at all  
I'm so sorry that she's gone, but her spirit lives on and on  
As you cross the rainbow bridge, you're in my heart
