

Dancing in the Corner

Monarchy

We're on the black list We're not welcome anymore Cause we had
the wrong point of view And we stumbled on an old taboo

Won't let them touch us Won't let them change who we are So we'
re making up our own rules Gonna turn out back on all the fools

Not going to give in Not going to give in to their law Just kee
p on moving on Just keep on moving on

Follow the bright stars Follow the bright stars out of tears Ju
st keep on moving on On our own

They don't want to see us free Fuck it we don't need them Fuck
it we don't need them

Turn our back against their world We'll be dancing in the corne
r Dancing in the corner Dance with me

They can't see Born with dulled out eyes They don't understand
who we are They do anything to avoid the scars

We'll find the back way In to masquerade ball Meet me in anothe
r place You and me backstage

Gonna set my soul on fire They're making me hold back desire
